Traffic currently handled by the Belle Harbor switch will be migrated to the Williamsburg Brooklyn, NY (NYCKNYWMPS0) softswitch (CS2K) located at 55 Meserole Street Brooklyn, NY, including, but not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC), Wireless, and Paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

All carriers including CLECs, IECs, and wireless and paging carriers, will need to secure new trunk groups built to the Williamsburg softswitch or have existing trunk groups to that switch augmented.

All ASRs for the Williamsburg softswitch must be received no later than September 1, 2014, in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by November 1, 2014. All ASRs for the Williamsburg softswitch must carry the project code of NYCKNYWMPS0.
