Verizon Services Operations  
13100 Columbia Pike, 02 Floor Room A24  
Silver Spring, MD USA 20904  
301-282-5514

**Implementation Date:** On or after December 13, 2014

**Planned Network Change(s) Will Occur at the Following Location(s):**

| <b>Location</b>  | <b>Verizon Central Office<br/>(or Other) CLLI Code</b> |
|--|--|
| 1095 Avenue of the Americas,<br>Manhattan, New York, NY 10036<br>(42 <sup>nd</sup> Street 5ESS office) | NYCMNY42DS1  |
| 375 Pearl St., Manhattan, New York, NY 10038<br>(Pearl Street CS2K switch)                             | NYCMNYPSPS0  |

### **Description of the Planned Network Change(s):**

The Verizon 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1), located at 1095 Avenue of the Americas, Manhattan, New York, NY 10036, will be decommissioned and replaced by the Verizon Pearl Street CS2K switch (NYCMNYPSPS0), located at 375 Pearl Street, Manhattan, New York, NY 10038. After all traffic served by the 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1) is migrated to the Pearl Street CS2K switch (NYCMNYPSPS0), the 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1) will be decommissioned (retired). Network trunks will be interconnected through the Pearl Street CS2K switch (NYCMNYPSPS0). Once these changes are completed, the Pearl Street CS2K switch (NYCMNYPSPS0) will be home to all 29 (twenty-nine) NPA NXX codes that are currently native to the 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1), which will be reflected in the LERG. Traffic to be migrated to the Pearl Street CS2K switch (NYCMNYPSPS0) includes, but is not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), Intra-LATA traffic, and local traffic.

### **Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

All ASRs for the Pearl Street CS2K switch (NYCMNYPSPS0) for trunk interconnection must include the project code of **NYCMNY42DS1**. All carriers (e.g., CLEC, Wireless or IEC) should submit direct end office trunk (DEOT) orders no later than October 14, 2014. These DEOT interconnections will support traffic migration for the 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1), prior to its eventual decommissioning. Prior to decommissioning of the 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1) (on or after December 13, 2014), LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the 29 (twenty-nine) native codes currently served by the 42<sup>nd</sup> Street 5ESS switch (NYCMNY42DS1) to reflect the Pearl Street CS2K switch (NYCMNYPSPS0) as the new home switch.
