

Verizon  
600 Hidden Ridge  
Irving, TX 75015-2092

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

**June 25, 2015**

**Carriers:**

Verizon North LLC, 1717 Arch Street, Philadelphia, PA 19103

Verizon South Inc., 22001 Loudon County Parkway, Ashburn, VA 20147

**Contact:** For additional information on these planned network changes, please contact:

Peter J. D'Amico

Sr. Consultant – Product Management/Product Development

416 7<sup>th</sup> Ave., 19th Floor

Pittsburgh, PA 15219

peter.j.damico@verizon.com

412-633-8424

**Implementation Date:** On or after **December 30, 2015**

**Description of the Planned Network Change(s):**

Verizon North LLC and Verizon South Inc. will change the Point Codes associated with some of the SS7 (Signaling System 7) network elements in Pennsylvania and Virginia. All of Verizon's SS7 network elements that currently use the "240" Network Identifier in PA and VA as part of the Point Code will be changed to a "246" Network Identifier. This is being done to accommodate transitioning the Point Code with the "240" Network Identifier to Frontier Communications Corporation on or about March 31, 2016. Once the change of the "240" Network Identifier in the Point Code has been implemented for all Verizon SS7 network elements and once the transaction with Frontier has closed, currently expected to occur on or about March 31, 2016, the Point Code with the "240" Network Identifier will be the responsibility of Frontier Communications Corporation. These changes will be made on all of the SS7 network elements listed below. Affected carriers will be contacted by Verizon in order to perform a coordinated change with Verizon on all associated signaling links and trunk groups terminating in PA and VA that currently use the far end "240" Network Identifier as part of the Point Code to the new "246" Network Identifier.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Service providers and any other affected carriers will need to alter their SS7 signaling that currently use the "240" Network Identifier as part of the Point Code for interconnection with SS7 network elements in Verizon North LLC and Verizon South Inc. Network elements used for Gateway Access Service and SS7 OffNet Service arrangements (services obtained from third parties) must be modified to continue to access or serve customers associated with the following list of network elements.

**Planned Network Change(s) Will Occur at the Following Location(s):**
