

[Dedicated Transport] Additional [Service] Charges

Change Charges [(Section 2.3 of Dedicated Transport Service Product Terms and Conditions)]:

If a Service Order is modified after its acceptance by XO, a per-Circuit change charge will apply as follows: \$50 for any change requested by Customer within five (5) days of Service Order acceptance; \$200 for any change requested by Customer between five (5) days of Service Order acceptance and five (5) days of the projected Start of Service Date; and \$400 for any change requested by Customer within five (5) days of the projected Start of Service Date. In addition, Customer must pay all third party charges imposed as a result of the change.

Cancellation Charges [(Section 2.3 of Dedicated Transport Service Product Terms and Conditions)]:

\$750, plus any third party charges incurred by XO in undertaking to install Service. The foregoing Cancellation Charges are additional to any Special Construction charges imposed by third-party providers responsible for provisioning portions of Service.

Service Extension Charges [(Section 3.1(d) of Dedicated Transport Service Product Terms and Conditions)]:

Service	Facility Type	XO Market	NRC	MRC Options			Max Cost
				1 Year	2 Year	3 Year	
DS1	Copper Loop	All	\$325/\$80 each additional Circuit				\$650
DS3	Coaxial Cable	All	\$550				\$1,100

				N/A			
EoC ≤20Mbps	Copper Loop (up to 8 DS0s)	All	\$375				\$750
EoC >20Mbps	Copper Loop (9-24 DS0s)	All	\$550				\$1,100
Ethernet ≤100Mbps	Cat5*	All	\$550	\$67	\$33	\$22	\$1,100
Ethernet >100Mbps, SONET	Fiber**	All, except New York, Chicago, and Los Angeles and their surroundin g areas	\$1,600	\$190	\$92	\$61	\$3,200
Ethernet >100Mbps, SONET	Fiber**	New York, Chicago, and Los Angeles and surroundin g areas	\$3,200	\$378	\$181	\$119	\$6,400

*Applicable only for Ethernet ≤100Mbps where the extension is 300 feet or less of cable. Service extensions originating as Cat5 cable that are greater than 300 feet must be completed using fiber facilities and will incur the applicable charges.

**Also applies to customized configurations.

In lieu of paying a NRC, Customer may elect to pay the Service Extension Charge as a MRC, in which case the applicable MRC set forth in the above Table will be established in the Service Order. Said MRC will be in addition to the MRC established in the Service Order for the Service.

Except as otherwise noted, the Service Extension Charges set forth above are based on a standard extension of an MPOE having a maximum distance of 300 feet of cable, whether lateral or vertical (or a combination thereof) within any building in which XO has common riser rights and XO's installation costs do not exceed the "Max Cost" amount set forth in the Table above. Service

Extension Charges for all other Circuit types, or where the “Max Cost” amount is exceeded, will be provided to Customer on an ICB and will be established in the applicable Service Order.

If XO does not accept a request to extend Services beyond a MPOE, Customer, at its sole expense, may use an XO-approved third-party provider to extend Service beyond the MPOE.

[

Circuit Type	Base Rate	Each Additional Circuit
DS1 (Copper)	\$325	\$80
EoC - up to 8 Bonded Copper Pairs	\$375	n/a
EoC - 9 to 24 Bonded Copper Pairs	\$565	n/a
DS3 (Copper)	\$550	\$550

The foregoing Service Extension Charges are based on standard extension of an MPOE with a maximum distance of 300 feet of cable (both lateral and vertical) within any building where XO has common riser rights.

If XO does not accept a request to extend Services beyond an MPOE, Customer, at its sole expense, may use an XO-approved third-party vendor to extend Service beyond the MPOE.

Service Extension Charges for all other Circuit types will be provided to Customer on an Individual Case Basis (“ICB”) and will be set forth in an applicable Service Order.]

Expedite Charges [(Sections 4.1(a) and 4.2(a) of Dedicated Transport Service Product Terms and Conditions)]:

Service	Expedite Fee
On-Net Service - 100 Mbps and below	\$675
On-Net Service - Above 100 Mbps	\$1,500
All Off-Net Service	\$500, plus all associated expedite charges imposed by the third-party provider

XO will endeavor to meet a requested expedite due date but cannot guarantee it will do so. Expedite charges will apply regardless of whether a requested expedite due date is met.

Installation Delay by Customer (Sections 4.1(c) and 4.2(b) of Dedicated Transport Service Product Terms and Conditions):

Applicable Charges: \$400

In addition to the foregoing charges, for Off-Net Service, Customer will be responsible for all associated third-party provider charges resulting from Customer's delay.
