14.0 INTERNATIONAL DEDICATED LONG DISTANCE. (This product and pricing will no longer be available to new Customers after September 19, 2005.)

- 14.1 Description of International Dedicated & Platinum Long Distance: International Dedicated Long Distance provides Customer, where technically feasible, with a dedicated facility from the Customer premise to Company's interexchange point of presence.
- 14.2 Annual Commitment Required: To be eligible for this product, Customer must agree to a minimum annual commitment level of at least \$3,600. If the Customer terminates agreement before its expiration date, Customer is liable for any unfulfilled annual commitment amounts for each partial and entire year remaining in the contract term.
- 14.3 Chargeable Call Duration: Unless otherwise specified, the minimum for a call is thirty (30) seconds and, thereafter, a call will be billed in six (6) second increments.
- 14.4 When customer wishes XO to place an "international call block" option (class of service) on their voice service with XO, this call block scenario does not restrict calls to countries that comprise the North American Dialing Plan (i.e., Canada, Bermuda, Anguilla, Antigua & Barbuda, the Bahamas, Barbados, the British Virgin Islands, the Cayman Islands, Dominica, the Dominican Republic, Grenada, Jamaica, Montserrat, Saint Maarten, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Trinidad and Tobago, and Turks & Caicos). Under the international call block option, XO only restricts calls that require customer to dial +011. Calls made to North American Dialing Plan countries will be billed at rates as set forth herein.
- 14.5 Rates for International Dedicated Long Distance: Rates for outbound international calling: The following rates apply on a per minute basis to calls originating in the United States and terminating in the countries listed. Rates vary dependent upon volume and term commitments and promotional. The rates and charges described below do not include the applicable local loop charges.

* For XO VoIP customers, due to high potential for fraudulent calls, traffic to countries marked with an asterisk (*) will be initially blocked. Customer must initiate a specific request to the XO CARE team to remove this block if calling to these specific set of countries is required.

16.2 When customer wishes XO to place an “international call block” option (class of service) on their voice service with XO, this call block scenario does not restrict calls to countries that comprise the North American Dialing Plan (i.e., Canada, Bermuda, Anguilla, Antigua & Barbuda, the Bahamas, Barbados, the British Virgin Islands, the Cayman Islands, Dominica, the Dominican Republic, Grenada, Jamaica, Montserrat, Saint Maarten, St. Kitts and Nevis, St.

Lucia, St. Vincent and the Grenadines, Trinidad and Tobago, and Turks & Caicos). Under the international call block option, XO only restricts calls that require customer to dial +011. Calls made to North American Dialing Plan countries will be billed at rates as set forth herein.
