# Join Webex Meeting While Chatting in Cisco Jabber

Release: 12.1, 12.5

While you're on a chat conversation with your friends or coworkers, you can also join a Webex Meeting in Cisco Jabber.

Before you join your Webex meeting, make sure that you've installed the Cisco Webex Meeting app in your device, and that you're signed in.

## Windows

1. From Cisco Jabber, click Meetings to view your meeting invites.
2. Click Join in Webex and follow the prompts to join your call while you are still on a conversation with your coworkers.

## Mac

1. From Cisco Jabber, click Meetings to view your meeting invites.
2. Click Join in Webex and follow the prompts to join your call while you are still on a conversation with your coworkers.

## iPhone and iPad

- If you're using Cisco Jabber for iPhone, then from the chat conversation window, tap  and then tap . Follow the prompts to join your call while you're still on a conversation with your coworkers.
- If you're using Cisco Jabber for iPad, from the chat conversation window, tap . Follow the prompts to join your call while you're still on a conversation with your coworkers.

---

## Android

1. If you're using Jabber on your phone, tap  and . If you're using Jabber on your tablet, select the Cisco Webex Meeting icon.
2. Follow the prompts to connect and join the meeting.
